

ATTACHMENT F

INSTRUCTIONS

1. Determine your participants to be served.

- How many in-school
- How many out-of school

This will determine your percentages in your in-school or out-of-school budgets.

Input your line item budget in the in-school or out-of-school modification form – these figures will populate over to the Attachment F form and all you will have to do at that point is go into the Attachment F description for that line item and type in your methodology of how you will be using those monies for the year.

2. Make sure that your totals on the top of the Attachment F balances with your line item totals.
